ON BOARD GEN. HASAGAWA'S TROOPSHIP, bound for Port Arthur (via San Francisco, Nov. 27).

I have just received word by a courier that Great Britain has again been ed by Japan. The British Minister at Tokio attempted to prevent the sailing of the invading army for Port Arthur, by asking the Japanese Government whether England might be authorized to say to China that Japan would be willing to end the war, on condi-tion that a generous indemnity fund should be paid and all claims of sureaty over Corea abandoned forever. he Minister urged upon Japan the estre of England to be a mediator. a reply the Japanese Government dearrang d at such a critical moment ould, therefore, make no reply at ent to the proposition of Her Maesty's Government, but advised pa tience. In a few weeks, he thought, there would be an opportunity to discuss the matter. And so the British attempt to delay the invasion of China

All approaches made by Great Britain viewed with suspicion and aversion. Japanese believe, justly or unjustly, that the British representatives in both Japan and Corea have been sending secret information for the use of the Chinese army. Nothing but the openarmed interference of the British will prevent the Japanese from pressing on to Peking. Everything points to such an interference.

I know that after the first victory in China the Japanese Government would have been secretly delighted to have

Unless China surders, Japan is bound to go on with the war at an enormous cost. The interference of England at a time the Japanese arms are everywhere triumphant and China is oled in the dust would be regarded as a blessing in Tokio. It is unnecessary to say that China also would welcome interference and peace. Nothing can crouse a genuine fighting spirit in her. England has such vast interests stake in the East that she must do comething to prevent a disruption of the Empire. But Russia-where does she stand? The British say the ans will back England. The Japanese laugh at this claim, but I know they are uneasy. The Russians themselves are silent. However that may be. have the edifying spectacle of Engand lending her influence and her sub stantial assistance to the common foe of civilization against a nation worthy stand in the front rank of progressive States. And for what? For the almighty dollar to be got out of Chinese trade. For the love of the dollar which the Pecksniffian British look upon with orror in America. CREELMAN.

Another of the Lexow witnesses has fled from the city, under circumstances which point very strongly to the suspicion that she was assisted in her fligh by the police.

Thirst avenue, and Mrs. Sophie Massick, the janitress of the house at 65 East Fourth street where Mrs. Thurow had been living quietly with her hus band and making a scanty living as a dressmaker since early last Spring.

Of course, an exception must be made of those who are supposed to have been instrumental in procuring her secret and sudden departure from the city, but the strangest part of the whole matter is that nearly a week should elapse before the knowledge of her absence should come to the public.

All sorts of rumors were current this morning, pointing to a conspiracy to get her out of the way before the criminal proceedings should be begun in the courts, and it was said that Mrs.

This, however, proves to be a mistake, as it was learned this morning that she was in arrears for rent for the apartments which she and her husband occupied, at 63 East Fourth street, to the amount of \$22.

Her sister, Mrs. Seyd, also says that she owed money to others, including herself and husband, who had frequently aided her with small loans since she gave up her disorderly house.

An "Evening World" reporter, who called at 63 East Fourth street this morning, found Mrs. Messick, the janitress of the house, who said that Mrs. Thurow and her husband had left their apartments on the second floor last Wednesday, and that she had not seen them since.

Mrs. Thurow had been away since Monday, she did not know where, but had returned on Wednesday morning, and in the afternoon had locked her rooms and gone out with her husband.

"She owed me his for the rent of the three rooms for November, and 44 on last month's rent," said Mrs. Messick, and she produced the receipts signed by Ernst Meyer, the landlord, who lives at Mount Kisco. They were not to be given to Mrs. Thurow till she had paid her rent in full.

"Two days afterwards," says Mrs. Merrick, "Mrs. Lloyd, the hister of Mrs. Thurow, came to me and told me her sister had sailed for Europe with her husband and that they would not come back.

Mr. Cleveland has been unable to do much writing, and the fact that his message is far from complete is said to have given him much uneasiness. It is possible that the neessage will not be made to prevent the custom from being broken at this time.

It comes from a high Administration official that the President's message will be a disappointment to those who have expected that he will deal exhaustively with the financial question.
